SOBBRE MI

I'm 25 years old, I live in Montevideo, Uruguay. I have been working formally as a developer since April 2023 at a startup focused on data science. I'm currently in my second year of a Bachelor's degree in Informatics. I consider myself a mediator within the team as I seek to foster good relationships within the group and solve tasks either independently or collaboratively.

Work Experience

IT - Tekne Data Labs (2023 > Present)

Within the company I develop Front-end, Back-end, database management, I also have tasks such as organizing APIs, webapps in Azure or virtual machines and working as a team to organize new challenges.

Gastronomy and Hospitality (2017 > 2021)

I fulfilled the roles of pastry chef, baker and cook in different institutions, the most significant of which was in the Blondies's Bakery production center and the Hampton by Hilton hotel.
